INTRODUCTION...

Today's Issues:

- Districts facing cuts
- Staff demands increasing
- Building use at lower costs
- Revenues are not keeping pace
- More business orientated
- COVID

Today's Challenges:

- Properly staff facilities to meet district expectations
- Become more efficient and streamlined
- Meeting/establishing acceptable levels of cleanliness
- Determining staffing levels and direct costs
- Managing the work force

Put it to paper:

- What is your mission-
 - Daily or alternate cleaning
- Establish standards with your custodial staff for “the look”
- What does it take to maintain “the look”
- Define the term “clean”
 - Hospital Look: pristine
 - Shiny, No dirty Look: no soil, scuff marks
 - Clean, Satin Look: low gloss, no soil
 - Not a Priority: low gloss, ground in soil.
- Define the term “The Look” for each area...
 - Floors: shiny/matt/yellowed
 - Carpet: new/stained/worn
 - Restrooms: spotless/stocked/odor free/grungy
 - Classrooms: spotless/acceptable/grungy

CUSTODIAL FREQUENCY OF CLEANING

The following minimum cleaning standards are expected for all schools:

CLASSROOMS, RESTROOMS, OFFICES, LOCKER ROOMS, HALLS/STAIRS, ETC...

6. Restock any paper, soap, hand sanitizing products, etc...
7. Sweep floors (dust mop)
8. Vacuum traffic lanes (some elem. carpets may require daily wall to wall service)
9. Empty female receptacle boxes
10. Sanitize restroom fixtures
11. Mop floors
12. Disinfecting for COVID: Protexus sprayers, classroom bottles/rags, how many times a day

*These are suggestions.
Follow your District's
expectations.*

CUSTODIAL FREQUENCY OF CLEANING CONT.

Semi-Annually:

These are suggestions. Follow your District's expectations.

ESTABLISH A WORK AREA SCHEDULE

- ▶ Determine staffing levels with standardized operations
 - District Wide
- ▶ Indicates approximate schedule times per area
- ▶ Make additional tasks or special instructions if applicable
 - Areas do not include setup/takedowns/breaks
 - Can serve as a guide for substitute custodians
 - Consider rotational cleaning

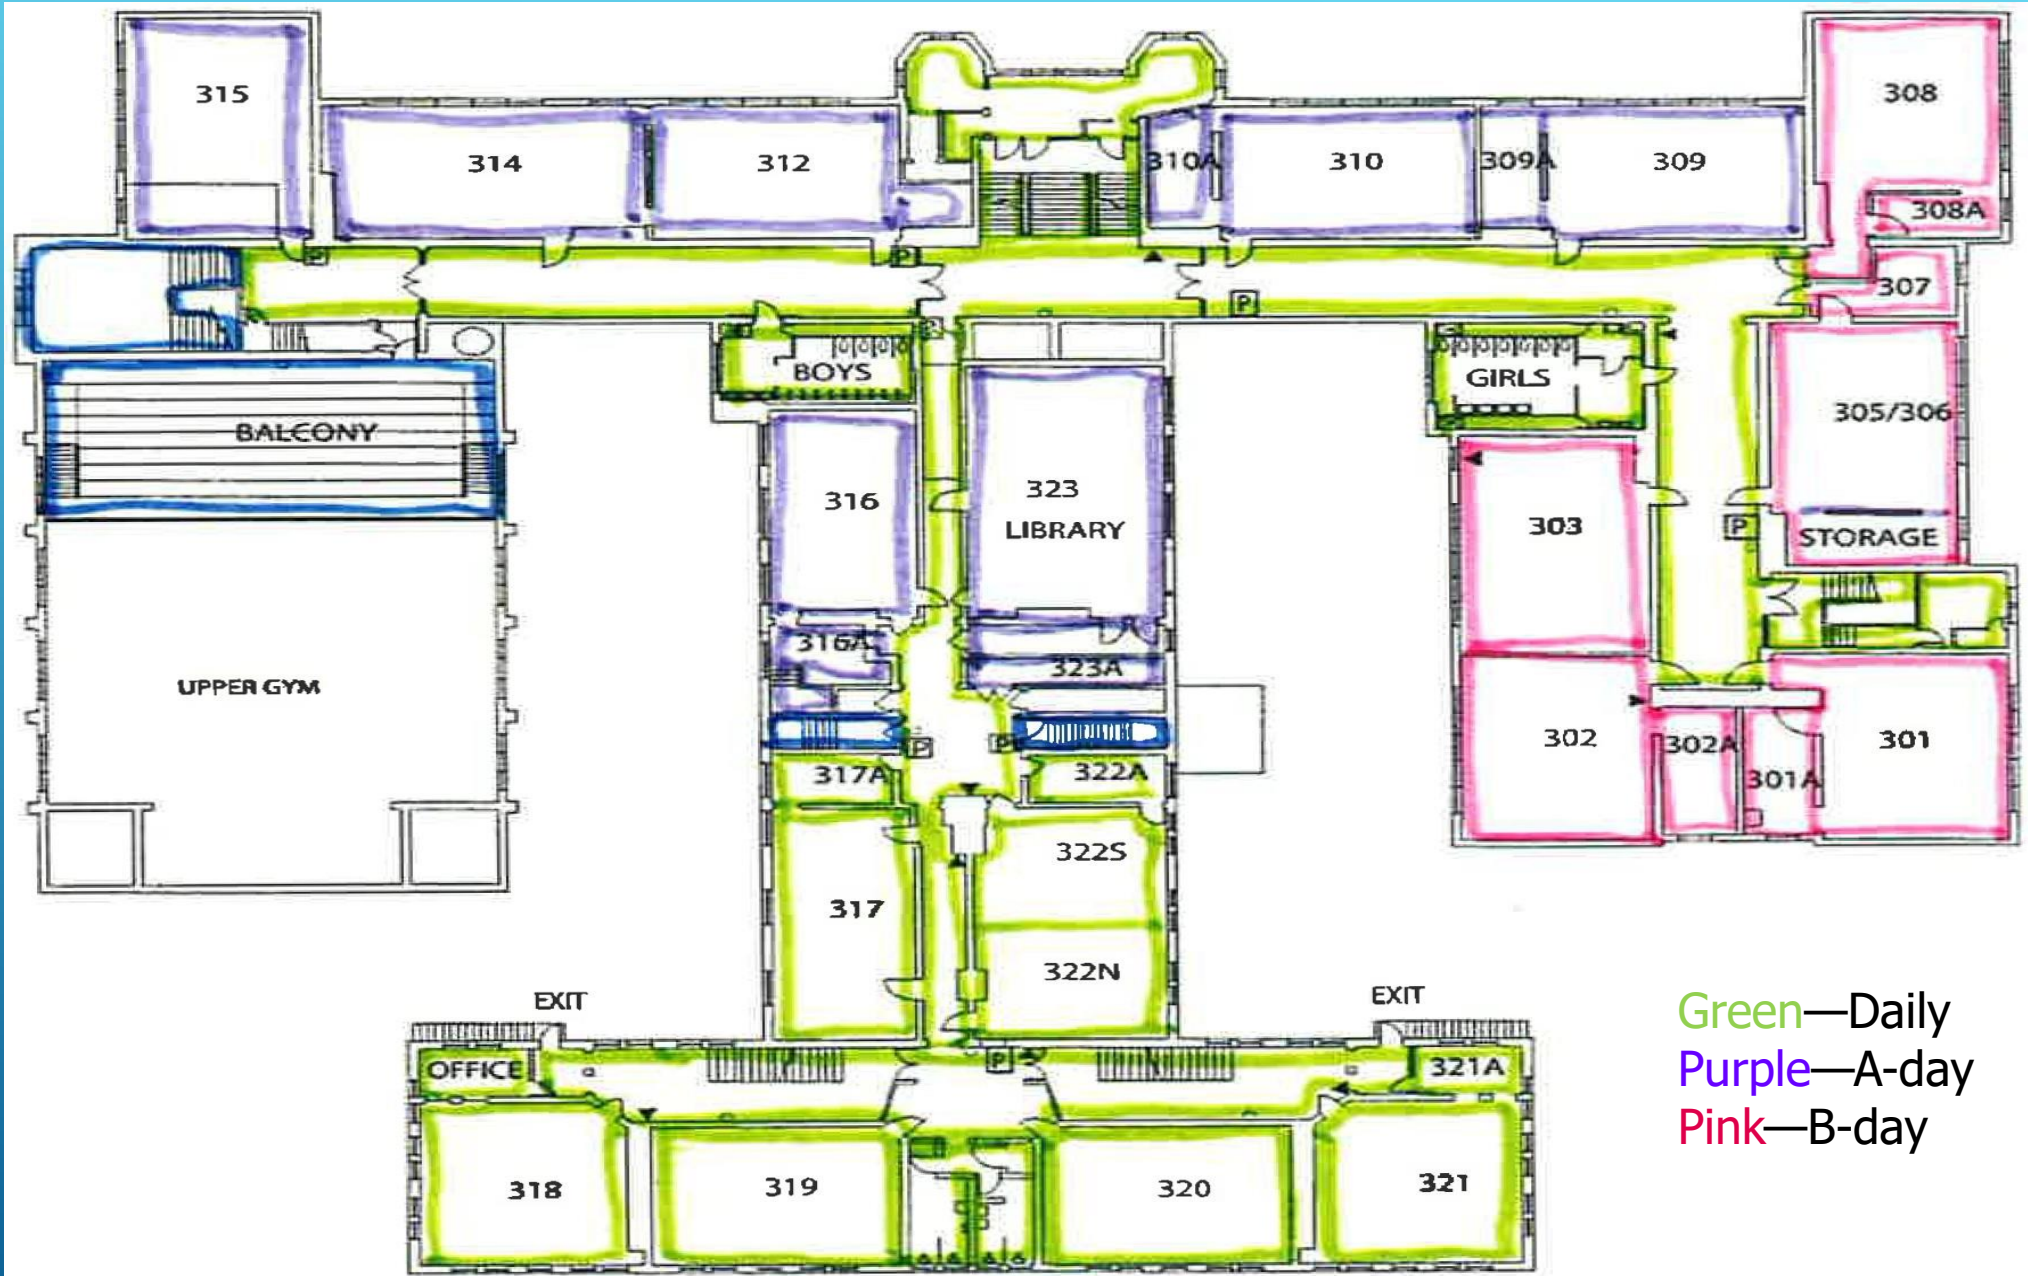

Use data to determine the best cost solutions

NOTE that all facilities **do not** clean the same
Multi story/floor finishes/correct equipment

TRANSITION TO THE

“HOW TO”

PERFORM CUSTODIAL ASSESSMENTS

Remember slide 2.... Today's Issues & Today's Challenges

Assessments will help you:

Determine proper custodial staffing levels

Determine best types of staffing such as

Full time, Part time,

Full time school year, Part time school year

Don't forget...part time can be **4, 5** or **6** hours or any combination there of

Important to differentiate between your “**service**” custodians (daytime staff) and your “**production**” custodians (night time staff)

Why, How and Where to start assessments:

Why: Because areas seem unfair,
Someone thinks staffing is wrong,
This process helps support your
staffing needs.

How: You will need **UPDATED** maps of your schools

Where to start: You will need to interview
your staff for current accurate areas.

At this time,
DO NOT DEBATE these times.

**** Primary Levels** will have higher cleaning times than secondary levels.

Gathering the Data

Employees: The Supervisor will provide each employee with a spread sheet OR building map to log the room numbers and cleaning times.

Supervisors: Will use the spread sheets to record the following data:

- each room number
- physically measure each room
- the estimated amount of cleaning time
- list any notes in the comments section (example: # of sinks, carpet, unusual items)

Employee Worksheet:

| School Name: K-Tec East | | | | Employee: Dale |
|-------------------------|---|-------------|----------|--|
| | Room Number <u>and</u> what the room is | Clean Daily | Emp Time | Comments |
| 1 | SE hall | x | 38 min | 2 bubblers, 4 door carpets |
| 2 | So. hall | x | 29 min | 2 door carpets |
| 3 | NE hall | x | 38 min | 2 bubblers, 4 door runners |
| 4 | Main hall stairs | x | 15 min | Double wide staircase |

REMEMBER....DO NOT DEBATE
these times AT THIS MOMENT!!

- Please list each hall with its own time.
- Please list each staircase with its own time.
- Please list restrooms within classrooms separate.
- If you combine all offices within a room time, please note that as I do them separately.
Example: Library, Main Office, etc...

Recommended Cleaning Times

| Hard Floors | Carpet | Gym/Hallway | Auto Scrubber | Damp Mop | Glass Cleaning | Blackboards | Bathrooms | Lunch Tables |
|---------------|---------------|---------------|---------------|---------------|----------------|---------------|-------------------|-----------------|
| (sq. footage) | (sq. footage) | (sq. footage) | (sq. footage) | (sq. footage) | (sq. footage) | (no. of bds.) | (no. of fixtures) | (no. of tables) |
| 11min/1000 | 23min/1000 | 2min/1000 | 8min/1000 | 11min/1000 | 1min/50 | 2.5min/bd | 3min/fixture | 2min/table |

Example: S.E. Hall—2500sq. Ft. / 1000 * 2 min = 5 min sweeping + bubbler(s)
(5 min to sweep + 6 min for bubblers = 11 min)

Example: S.E. Hall—2500sq. Ft. / 1000 * 8 min = 20 min scrubbing
(20 min + 11 min = 31 min total)

Example: CR—1120sq. Ft. / 1000 * 11 min = 12 minutes + sinks, boards, etc
(11 min sweeping + 2 min [20% damp mop] + 3 min sink + 1 min [2 boards, 5 min / 5 days] = 17 min)

Example: RR--10 fixtures * 3 min ea = 30 min cleaning

| HC— (5am-1:30p) | | | Total clean time: 150 mins prior to start of school |
| FT Cust— (1:30p-9:30p) | Loses 90 min due to his start time/school end time | Loses 40 min clean time: lunch/break | Total clean time: 350 min clean time (5hr 50min) |

Questions:

- * What can be cleaned **after** the start of school?
(areas not high in demand: offices, custodial areas, etc...)
- * Can anything get done on an **as needed** basis?
(an area that doesn't get used every day: music room, stage, etc...)

The way the building is staffed right now:

150 clean minutes for HC (prior to start of school)

350 clean minutes for FT Cust (due to start time/breaks/school released)

335 clean minutes for PT Cust (start time/break)

835 total clean minutes (13hrs 55min)

Determine amount of Ambush time per employee

Examples of Ambush time:

- Open building
- Set ups
- Boiler/Pool/Cooler
- Breakfast program
- Outside trash pick up
- Accept deliveries
- Secure building
- Take downs
- Maintenance
- Snow removal
- Assist rental groups
- Daily customer service, day and night

Observations & Things to Remember

Not all facilities clean the same:

- Multi-story buildings
- Elementary -vs- High Schools
- Floor Surfaces
- Gain productivity with proper equipment
- Building usage could affect staffing and/or cleaning areas
- Use data to determine building finishes

Staff all new and existing facilities according to the following:

- Standard cleaning times
- Cleaning standard square footage (slide 23)
- Areas **ARE NOT** staffed per student population. (population changes, square footage does not)
- Use data to determine most efficient staffing levels

Identify right sized equipment

Scrub path: 26-34"

Solution/Rec. Tank: 35 gal

Run time: 7 hours

Coverage: 35,500 sq ft/hr

Scrub path: 17-28"

Solution/Rec. Tank: 17 gal

Run time: 3.5 hours

Coverage: 25,543 sq ft/hr
